

ROTARY CUTTERS

There are three series in the line of Land Pride rotary cutters to meet your specific needs. Models include the 4-6 foot range, the tough medium duty 5-7 ft range and the rugged heavy-duty 5-10 foot range.

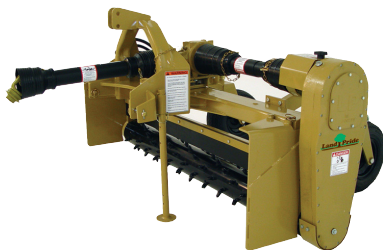

PARALLEL ARM CUTTERS

The RCP2660 and RCPM2660 Hydraulic Parallel Arm Rotary Cutters provide excellent cutting performances on ditch banks and other sloping areas adjacent to right-of-ways, lakes, ponds and streams.

ROTARY TILLERS

The RTR12 Reverse-Till Rotary Tillers till soil for seedbed and planting preparation with uses and applications in landscaping, gardens, and residential areas.

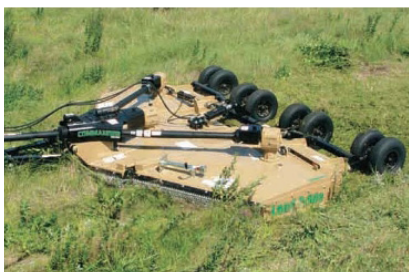

PTO POWERED RAKES

The PR16 Series Powered Rakes are designed and built by Land Pride to be multi-functional seed bed or soil surface preparation tools for landscapers and turf care professionals.

GROWING MOWERS

The Land Pride FDR16 Rear Discharge Grooming Mowers are designed and built with the homeowner in mind, to provide high productivity and excellent cutting quality on well maintained lawn and turf surfaces.

RC 5510, RC 6515

The RC5510, RCM5510, RC6510 and RCM6510 Series Rotary Cutters are designed and built by Land Pride to provide excellent cutting performance on gently sloping or slightly contoured right-of ways, roadsides, pastures, set-aside-acres, or for residue in row crop fields.
