**305 CR**
Mini Hydraulic Excavator

**Engine Power**
- Gross 32 kW 43 hp
- Net 31.3 kW 42 hp

**Maximum Operating Weight**
- With cab 4990 kg 11,000 lb
- With canopy 4940 kg 10,890 lb
305 CR Mini Hydraulic Excavator

*Designed and built by Caterpillar® to deliver exceptional performance, versatility and productivity. Easy to operate in confined jobsites and backed by the Caterpillar commitment to serviceability and customer support.*

**Performance and Versatility**
The Caterpillar 305 CR Mini Hydraulic Excavator has been designed to deliver exceptional performance providing optimum versatility and productivity.

The compact radius of the upper structure* stays within the width of the undercarriage, so the operator can concentrate on the work being performed without having to worry about the back of the machine.

High bucket and stick forces combined with fast, smooth hydraulics ensure optimum performance and versatility.

Standard and long sticks are available for a variety of applications. Optional auxiliary lines provide full machine utilization. pg. 4

**Comfort and Ease of Operation**
A spacious cab with sliding door provides easy entry and exit in confined job sites.

The compact radius design and ergonomic low effort pilot hydraulics provide ease of operation, especially in space restrictive environments.

An optional control pattern changer allows the operator to easily change between backhoe and excavator digging patterns, further increasing the 305 CR’s versatility. pg. 5

**Serviceability**
Simple, convenient daily maintenance is provided with the tilt-up, wide engine enclosure, allowing access to all major components and service points.

Low maintenance bushings used on the front linkage and blade pin joints for 500 hour greasing intervals, reducing time for routine maintenance. All grease fittings can be easily reached.

S-O-S™ oil sampling valves provide easy sampling of hydraulic oil. pg. 4

---

*Built for tough work*
The 305 CR Mini Hydraulic Excavator is built to the same high standard as larger Caterpillar excavators. A stylish and innovative design means that the upper structure* swings within the undercarriage width offering the optimum performance in the tightest applications.

* Without additional counterweight
Customer Support
Caterpillar dealers offer unmatched customer support with excellent equipment services and fast parts availability, resulting in maximum uptime and minimum repair costs. Equipment maintenance and management services help optimize performance, reliability and profit. pg. 5

Work Tools

Caterpillar buckets and hydromechanical tools matched to the 305 CR Mini Hydraulic Excavator.

Work Tools
The 305 CR Mini Hydraulic Excavator utilizes work tools which have been designed to extend the versatility of the machine. Built for performance and durability, the full range of Mini Hydraulic Excavator work tools deliver high productivity, long life and excellent value.

- Augers
- Crushers
- Digging Buckets
- Ditch Cleaning Buckets
- Hydraulic Hammers
- Hydraulic Thumb
- Shears
- Vibratory Plate Compactor

Mechanical Quick Coupler
This feature allows the operator to make fast and easy work tool changes. The Caterpillar Quick Coupler maximizes work tool performance while allowing the operator to change work tools efficiently.
Performance and Versatility

The Caterpillar 305 CR has been designed to deliver exceptional performance providing optimum versatility and productivity.

The **Compact Radius** of the 305 CR’s upper structure lies within the width of the undercarriage allowing unrestricted operation when working next to obstacles.
- High performance in a compact package is provided by high digging forces and fast cycle times
- Efficient variable flow hydraulic system with stick regeneration and boom confluence valve enables high output excavation and loading capability
- High lifting capacity is enhanced by a boom drift reduction valve for lifting and holding tasks

**Versatility** means the 305 CR is capable of completing a variety of tasks.
- Auxiliary lines enable the operation of a variety of work tools including hydraulic hammers, augers, shears and crushers
- Strong track drive and full width dozer blade enable effective site clearing, which is further enhanced by the dozer blade float function

Serviceability

Spacious engine enclosure and wide tilt-up engine enclosure allows easy access for maintenance and service.

The large opening tilt-up engine cover provides easy, ground level access to all maintenance checkpoints. Removable panels on the rear side of the engine further improve component accessibility.
- Electric fuel pump provides automatic fuel priming
- Large Caterpillar fuel filter and water separator protect the engine and ensure efficient operation
- Single key locking of all covers for security and convenience
- Low maintenance bushings extend greasing intervals to 500 hours on dozer and all front linkage joints (except bucket)

- All grease points are protected from damage and are accessible from ground level
- S•O•S oil sampling valves provide easy sampling of hydraulic oil for preventative maintenance
Comfort and Ease of Operation

*Large, comfortable operator station and responsive pilot hydraulics ensure ease of operation.*

The **Operator Station** is spacious with the dimensions of a larger excavator cab and is easy to enter and exit via the sliding door.
- Tinted glass reduces glare and heat build-up
- Gas strut assisted front window for easy opening
- Front window wiper and washer for a clear view
- Cab is radio ready
- The flat floor allows easy sweep out
- Optional front window guards

**Excellent Visibility** to the work tool and machine surroundings is provided by the offset boom and compact upper structure.
- The dozer blade is visible from all swing angles for maximum convenience
- A polycarbonate skylight provides additional visibility at high boom positions

**Full Controllability** is provided by the low effort, ergonomically designed pilot hydraulic levers.
- Both independent and with-seat adjustment of pilot levers for the ideal operating position
- Dial type accelerator plus one-touch low idle switch in the pilot lever gives instant engine speed control
- All controls are pilot hydraulic operated, including: front linkage, travel, dozer and auxiliary
- Optional control pattern changer for quick selection of excavator or backhoe controls

**A High Level of Comfort** provides maximum productivity
- Fully adjustable reclining suspension seat
- Low operator and spectator sound levels
- The cab includes heater and optional air conditioner for maximum comfort in a range of climatic conditions

Customer Support

*Complete services provided by the world’s largest dealer network.*

**Unmatched dealer support** with excellent equipment management services and fast parts availability — most within 24 hours — provide maximum uptime and minimum repair costs.

**Equipment maintenance services** to help optimize machine performance and reliability. Services include:
- Customer Support Agreements
- Maintenance contracts
- Scheduled technical inspections

**Equipment management services** to help optimize profits. Services include:
- Machine and work tool selection
- Rental and leasing
- Purchasing and financing
- Extended warranties

Note: For a complete explanation of these services please contact your local Caterpillar dealer.
**Engine**

Mitsubishi K4N naturally aspirated, watercooled, 4-stroke, 4 cylinder diesel engine.

**Dimensions**

- Bore: 90 mm | 3.54 in
- Stroke: 90 mm | 3.54 in
- Displacement: 2290 cm³ | 140 in³

- Meets U.S. EPA Tier 2 and EU Stage I off-highway emission regulations
- Glow plugs in each cylinder for easier cold-weather starting
- Gradeability (continuous) 25°

**Hydraulic System**

Open-center system with two cross-sensing, variable displacement pumps and single gear pump for maximum output and efficiency.

**Operating pressures**

- Linkage: 245 bar | 3550 psi
- Travel: 245 bar | 3550 psi
- Swing: 245 bar | 3550 psi

**Auxiliary circuit (maximum)**

- Flow: 94.2 l/min | 25 gpm
- Pressure: 245 bar | 3550 psi

**Digging forces (at cutting edge)**

- Bucket: 42.0 kN | 9440 lb-ft
- Standard stick: 27.6 kN | 6205 lb-ft
- Long stick: 23.3 kN | 5240 lb-ft

- Stick regeneration circuit enables high stick-in speeds
- Boom confluence valve combines pump flows for faster lift speed
- Boom drift reduction valve minimizes boom movement for lifting duties

**Swing System**

Independent swing circuit maintains swing speed and force while operating the front linkage.

- Machine swing speed: 9.6 rpm
- Boom swing angles:
  - Left (min. stop position): 55°
  - Left (max. stop position): 80°
  - Right: 50°

- Self lubricating swing speed reduction gear
- Grease bath lubricated pinion
- Automatic, spring applied parking brake prevents swing drift on a slope and during machine transportation

**Electrical System**

- System voltage: 12V
- Alternator output: 50 amp
- Starter motor: 2.0 kW
- Battery: 650 CCA, 55 amp/h

  - Maintenance free battery
  - Sealed electrical connectors
  - Abrasion and flame resistant braiding on harnesses
  - Circuit breaker for overload protection

**Undercarriage**

- X-shaped, fabricated carbody for strength and durability
- Sloping track roller frames and dirt relief holes reduce build-up of debris
- Track tension adjustment by grease filled cylinder
- Five bottom rollers and one top roller per side
- Ground clearance: 335 mm (13 in)

**Travel System**

**Travel speed**

<table>
<thead>
<tr>
<th>High</th>
<th>4.6 km/h</th>
<th>3.0 mph</th>
</tr>
</thead>
<tbody>
<tr>
<td>Low</td>
<td>2.7 km/h</td>
<td>1.7 mph</td>
</tr>
</tbody>
</table>

**Traction force**

44.6 kN | 10,020 lb-ft

- Compact drive modules within track width for protection
- Straight-line travel possible when tracking and operating the front linkage together
- Counter balance valves built-in prevent over speed conditions when traveling down slopes

**Weights**

With rubber track, bucket, operator and additional counterweight, 190 kg (418 lb). Weights vary depending on machine configuration.

- Cab: 4990 kg | 11,000 lb
- Canopy: 4940 kg | 10,890 lb

**Service Refill Capacities**

*Removal of the additional counterweight decreases this dimension by 100 mm (4 in).

### Standard Equipment

- Additional counterweight, 190 kg (418 lb)
- Automatic swing parking brake
- Boom cylinder guard
- Boom drift reduction valve
- Cab/canopy mounted lights
- Canopy to TOPS and FOPS standards
- Vinyl suspension seat
- Control pattern changer
- Dial type accelerator
- Double element air filter
- Dozer blade with float function
- Floormat
- Gauges/indicators for fuel, engine oil pressure and coolant temperature, air cleaner, alternator and glow plugs
- Hour meter
- Low maintenance linkage joints
- Maintenance free battery
- One-touch low idle
- Rubber tracks
- Seatbelt, 50 mm (2 in) wide
- Standard stick
- Two speed travel
- Travel alarm
- Travel foot pedals

### Optional Equipment

- Air conditioner
- Auxiliary hydraulic lines for front linkage
- Boom mounted lights
- Cab, fully glazed to TOPS and FOPS standards with heater, interior light, front window washer/wiper, radio-ready kit and fabric suspension seat
- Front screen guard for cab and canopy
- Long stick
- Mechanical quick coupler
- Seatbelt, 75 mm (3 in) wide
- Steel tracks
- Work tools
