

# Cat<sup>®</sup> Equipment Management Solutions (**EMSolutions**)

## INCREASE UPTIME, REDUCE OPERATING COSTS

Choose the right amount of equipment management support you need and see your costs reduced. **EMSolutions** has five progressive levels ranging from basic connection to your fleet's electronic data, to complete, proactive management of your fleet. Helping you grow a stronger business. That's what we're built to deliver.

## BUILT FOR IT.™

### LEVEL 1 ACCESS

Get information directly from your equipment to monitor where it is, and what it's doing.

- Track operator performance.
- Get health and utilization data.
- Plan preventive maintenance and schedule repairs.

### LEVEL 2 INFORM

Get our monthly fleet reports to help you manage your equipment and keep costs down.

- Receive key operator-induced fault codes.
- Know your run vs. idle time.
- Compare your fleet to others in the region.

### LEVEL 3 ADVISE

Get our expert recommendations to help you make informed decisions on equipment management and maintenance.

- Improve asset health and utilization.
- Fluid analysis via S•O•S<sup>SM</sup> Services.

### LEVEL 4 SUPPORT

Let us handle your preventive maintenance to:

- Improve equipment availability and lower operating costs.
- Enhance equipment resale values.

### LEVEL 5 MANAGE

We take care of all equipment management services including Levels 1 through 4, plus on-site maintenance and repair.

- Reduce unscheduled repairs and downtime.
- Ensure fixed operating and maintenance costs for better business planning.
